"The Booth" is something brand new that is being added to the annual Flavor Fest conference this year. We're taking some well known artists from our movement and putting them in "The Booth" with some unknown, independent, talented artists to produce a song. This recording session will be turned into a music video and round 1 will premier Friday night October 5th during the concert and round 2 will be shown on Saturday night October 6th during the concert. The songs will also be available on iTunes.
